

TEKSystems - Acrisure (Remote)

Detroit, MI

Service Desk Analyst

2023-2024

- Collaborated with IT teams to identify and resolve complex technical issues potentially related to malware, software vulnerabilities, or user errors.
- Maintained secure user environments by managing account access, enforcing IT standards, and supporting enterprise applications (Windows, Office 365).
- Delivered end-to-end support for global users, ensuring system stability, compliance, and proper documentation of incidents.
